Media Capture and Streams API - Additional Resources

Here are some useful documentation links we visited during the recording. Feel free to explore and experiment with the options:

1. MDN: HTML Attribute Reference - `accept`
2. MDN: HTML Attribute Reference - `capture`

Additionally, we referred to a popular Stack Overflow discussion where it was clarified that the `capture` attribute does not require the value `"camera"`:

- Stack Overflow: HTML5 Input Type File Accept Image Capture Camera Display as Image
